

Purity, fuel cell generator 5 kVA

Specific product property

- Generator powered by PEM fuel cell
- Robust concept, suitable for intensive use
- Fully autonomous (no external power needed)
- No noise or exhaust emissions
- Hydrogen bundle quick and easy exchangeable

Technical information

Output	4 kWe 230/400V - 50Hz
Fuel	Hydrogen 5.0
Type	Silenced
Sound level	60 dB(A)
Fuel supply	Bundle of 12 cylinders hydrogen (total 600 litre, 200 bar)
Fuel consumption	Ca. 20 litre/hr @ prime power
Weight in kg	2.000
Dimensions in mm (LxWxH)	2.500 x 1.250 x 2.090
Facilities	Lockable and adjustable lift frame
Electrical connexion	Output plug 32A 5p CEE
