

	Ad-Venta Pressurized gas handling applications		Dana Holding Corporation Balance of plant, hydrogen reformers and stack components		Fraunhofer ICT-IMM Reformers, heat exchangers
	Advent Technologies Inc. Development of advance materials for renewable applications		Dantherm Power A/S Sapphire project		Fraunhofer Institute for Solar Energy Systems ISE Fuel Cells Systems, Electrolysis
	AEG Power Solutions GmbH Power supply systems for electrolysis		DBI Gas- und Umwelttechnik GmbH Components for fuel cell heating appliances		Fraunhofer-Institut für Mikrostruktur von Werkstoffen und Systemen IMWS Microelectronics, synthetics, surfaces, photovoltaic, luminescent material
	Agfa-Gevaert NV Zirfon Perl Membranes: Separator membrane for alkaline water electrolysis		De Nora Deutschland GmbH Gas Diffusion Electrodes (GDE), Cathodes, Anodes, Membrane Electrode Assembly (MEA), E-Tek™		Fraunhofer-Institut für Keramische Technologien und Systeme IKTS Portable fuel cell system eneramc, high-temperature battery cerenergy, CFY-Stacks
	AIR LIQUIDE Advanced Technologies GmbH H2 dispenser mock-up		Deutscher Wasserstoff- und Brennstoffzellen-Verband e.V. (DWV) Association providing information, expertise and networking in the field of hydrogen and fuel cells		Fraunhofer-Institut für Windenergie und Energiesystemtechnik IWES Virtual battery, multifunctional converter, efficient antenna system for inductive charging system, testing system for electro mobility
	Air Squared Inc. Scroll compressors, expanders, vacuum pumps and H ₂ recirculation pumps / Custom scroll design and engineering		Deutsches Zentrum für Luft- und Raumfahrt e.V. (DLR) Institut für Technische Thermodynamik Fuel cells, electrolysis, innovative components		Fraunhofer-Institute for Manufacturing Technology and Advanced Materials IFAM Metal hydride technology, alkaline electrolysis technology, H ₂ on-demand generators, hydrolysis technology, energy and heat storage technology, supercap technology, thermoelectric technology
	Alcrys® Fluid-Control & Services Pressure regulating solutions for high-pressure gases		Dexmet Corporation Expanded metal foils and polymers		FuelCell Energy Solutions GmbH Model of a fuel cell plant (DFC3000 EU - 2,8 MW)
	Allianz Elektromobilität Socio-scientific and ecological accompanying research		Diamond Lite S.A. On-site gas production plants		FuelCon AG Testing systems for fuel cells and batteries
	Andreas Hofer Hochdrucktechnik GmbH Piston compressor TKH		DTU Energy FCH Test Center Testing cells, stacks, components; fuel cells, electrolysis and batteries		FUMATECH BWT GmbH Membranes for fuel cells and water electrolysis, separators for batteries, catalyst-coated membranes, humidifier modules, water treatment
	Anleg GmbH Hydrogen projects		E-PORT AN Long-term goal: electrify as many vehicle movements as possible at Frankfurt Airport		Fuel Cell Finland The Federation of Finnish Technology Industries Accelerating the utilization of fuel cells through networking
	AREVA H₂Gen GmbH PEM electrolyser		E-Power Mobility GmbH E-transporter		Greenlight Innovation Fuel Cell Manufacturing Equipment, Hydrogen Dispensers and Refuelers, PEM and SOFC Fuel Cell Test Stations, Lithium Battery and Flow Battery Test Rigs
	Association Française pour l'Hydrogène et les Piles à Combustible (Afhypac) Promotion of hydrogen energy		E.ON Technologies GmbH Power generation in buildings using fuel cells		Greenlight Innovation GmbH Fuel Cell Manufacturing Equipment, Hydrogen Dispensers and Refuelers, PEM and SOFC Fuel Cell Test Stations, Lithium Battery and Flow Battery Test Rigs
	AVL List GmbH 10kW SOFC CHP system, THDA stack monitoring, portable SOFC power generator		EBZ Entwicklung- und Vertriebsgesellschaft Brennstoffzelle mbH Single components for SOFC systems (e.g. heat exchangers, sensors)		Greenstat AS
	Ballard Power Systems Inc. Fuel cell technology solutions		EIFER Europäisches Institut für Energieforschung Sapphire project		H-TEC EDUCATION GmbH Hydrogen demonstration model for public relations, education systems for schools
	balticFuelCells GmbH quickCONNECTfixture qCf Fuel Cell / quickCONNECTfixture qCf redoxflow battery, SuSy300 fuel cell subsystem		Eisenhuth GmbH & Co. KG Bipolar plates, gasket, components, electrolyzers, fuel cells, redox flow battery		H&Power, Inc. Liquid & Gas Reformer Module, Reformer, Reforming Catalyst, Reactor, Catalyst
	Bender GmbH & Co. KG Isolation monitoring in electro and hybrid vehicles, current monitoring and charge controllers in AC charging stations, isolation monitoring in DC charging stations		Elcogen Oy SOFC cells, SOFC stacks		H2 Logic A/S Hydrogen fueling solutions
	Borit NV Metallic bipolar plates and interconnects, flow plates for cooling and micro reactors		Elcore GmbH Fuel cell systems for combined heat and power generation in individual homes (micro-CHP) and large facilities		H₂ MOBILITY Deutschland GmbH & Co.KG Our mission: to build up a network of 400 hydrogen filling stations in Germany by 2023
	BOSAL Energy Conversion Industry High temperature heat exchangers for fuel cell applications, Reformers for fuel cell applications		EnBW Energie Baden-Württemberg AG Power generation in buildings using fuel cells		H₂BZ Wasserstoff- und Bfennstoffzellen-Initiative Hessen e.V. Fuel cells and electrolyzers
	Boyam Power Systems Co., Ltd. Fuel Cell Power Systems		Energy Saxony e.V. Innovative fuel cell technologies and systems for the generation and storage of hydrogen as well as automation solutions and simulation tools		H2SYS Fuel cell genset
	Buderus Fuel cell heating appliances		ENGIE Group International energy provider		HA Hessen Agentur GmbH, Geschäftsstelle Elektromobilität Promoting electro mobility in the State of Hessen
	Busch Clean Air S.A. Compressors		Engineered Fibers Technology, LLC Spectracarb gas diffusion media, carbon fiber paper and panels, activated carbon fiber cloth, GDL design and development services		HA Hessen Agentur GmbH, Projekt Brennstoffzelle Promoting the State of Hessen both in Germany and abroad
	Business France tbd		ETOGAS GmbH Power-to-Gas projects and CO ₂ /lean gas recycling		HASKEL Compressors, booster, high-pressure valves & test benches, fittings & tubing, hydrogen refueling solutions
	Canadian Hydrogen and Fuel Cell Association Industry Association		European Hydrogen Association (EHA) Association promoting hydrogen as an energy carrier		
	CerPoTech AS Ceramic powders for SOFC, ceramic membranes, solid state batteries and other components		EWE AG Power generation in buildings using fuel cells		
	Clean Energy Partnership (CEP) The Clean Energy Partnership (CEP) focuses on clean, quiet, low-emission mobility for the future		ExMesh High Tech Expanded metal mesh		
	Connecticut Center for Advanced Technology, Inc. Nonprofit corporation with expertise in supply chain management, strategic planning, and business assistance		Federation FCLAB Sapphire project		
	Convion Oy Convion fuel cell products		FESB University of Split Sapphire project		
	CSA Group Standards development, testing & certification organization		FLEXIVA automation & Robotik GmbH DC/DC- & DC/AC converters, converter components		
	Daimler AG Part of the Clean Energy Partnership (CEP) fleet at the Ride & Drive		Forschungszentrum Jülich GmbH Fuel cells and electrolyser systems		

	Heliocentris Academia GmbH HyDrive - Electric Vehicle Trainer, Hybrid Energy Lab System - 1200W Fuel Cell Training System
	Hephas Energy Corporation Fuel Cell test equipment
